

QUALITY. TRANSPARENCY. SUSTAINABILITY.

Certified quality. Transparent supply chains. Sustainable brand management.

That's precisely what our current certifications stand for. With clear processes, verifiable standards, and a consistent focus on sustainability, we create measurable security – for your brand and your communication.

OUR CERTIFICATIONS.

ISO 9001:2015

ISO 9001:2015 confirms our quality management with reliable processes, clear documentation and transparent production.

FSC®

The FSC® seal confirms our use of paper and wood materials from responsible forestry and traceable wood origin.

ISCC

With ISCC certification, we ensure transparent, traceable supply chains and the use of recyclable raw materials.

In addition, we continuously invest in resource-saving technologies – such as our photovoltaic systems and energy-efficient production structures.

PRODUCT LINES

such as elastoREuse, elastoNature and Tritan™ Renew

enable you to use promotional materials that are both environmentally friendly and brand-strong.

elastoNature

elastoNature combines sustainability with design. Made from bio-based or biodegradable materials – the environmentally friendly alternative to conventional plastic.

elastoREuse

elastoREuse stands for sustainable reusable solutions in the takeaway sector. Reusable, 100% recyclable, and suitable for dishwashers and refrigerators.

Tritan™ Renew

Our Tritan™ collection stands for modern, durable products made from high-quality material – robust, tasteless and dishwasher safe.
